INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

RECORD OF EVENTS.

On the evening of the 19th of February 1864 the Company received orders to proceed on the following morning to Powell's River Bridge on the Cumberland Gap and South Carolina Road at which place they arrived at 9 o'clock A.M., having marched a distance of 5 miles. We remained at that place until the morning of Feb'y, 22nd 1864 at which time we were attacked (at about 5 1/2 o'clock A.M.) by the Enemy's Cavalry variously estimated at from 600 to 800 strong. Our force consisting of Companies A and I, numbering 55 effective men. After an action of 3 hours duration we repulsed the Enemy without the (over.)

loss of a man. Immediately after the close of the action received orders from Brig. Genl. Garrard Commanding District of the Clinch (then at Cumberland Gap) to fall back to the Cottrell House, a distance of $2\frac{3}{4}$ miles below the Gap on the Jacksborough Road in East Tennessee. Having no means of transportation for our Camp and Garrison Equipage it was destroyed to prevent it falling into the hands of the enemy, for the above reason we had to destroy some surplus arms & accoutrements. The Enemy's loss in killed & wounded was variously estimated from 15 to 25 men.

RECORD OF EVENTS (Continued).

Morning of Nov. 19 and arrived at Henderson Nov. 20 at 5 o'clock P.M. without casualty or accident, and assumed command and reported immediately to Col Maxwell.

I detached from my command at Hopkinville on the 15th Nov. five different scouting parties to proceed by different routes to Henderson & report to me there on Nov. 21st. They reported promptly having scouted the country thoroughly.

By orders from Hd Qrs S. W. Dist Ky. dated Bowling Green Nov. 13th Col Maxwell comdg, I was ordered upon my arrival at Henderson to send one company to Owensboro to remain there until further orders. On Nov. 22^d I sent Co. D Capt Prange to Owensboro, with

orders to report to these Hd Qrs.

Owing to the Regt having been moved so soon after organization and detaching Companies immediately after being mustered our reports and accounts are not in as regularly as we could wish. In a little while, however, we hope to have them all regular and perfect.

Since and before our Regiment was mustered we have kept out scouting parties continually, who have brought in numerous prisoners and property of various kinds, details of which it would be unimportant and impossible to give in this space. In all cases however the officers and men have behaved in a manner to reflect credit upon themselves and the Regiment.

of the vicinity of Martin, fell back to Cal-

Orange, with forty men from Owens-
boro to his assistance. They, with

Lieut Byers command, chased him all through the country without being able to get him to make a stand. On Dec 5th I ordered Capt Hutson Brown to their assistance with twenty five men. Lieut Anderson Byers returned to Henderson Dec 6th reporting his inability to catch Martin. I immediately ordered Capt Avery Byers to go after him with fifty picked men and horses, and not to return without being able to report his being killed, captured, or being driven across the Cumberland River. He left on Dec 7th. On Dec 9th Lieut David Goad returned reporting that he had chased Martin to Canton on the Cumberland River, where eight of his men were captured by a party of the 3^d Ky Cavalry. The balance with Martin escaped across the river. Capt Brown and Capt Byers returned on Dec 12th and 13th reporting none of Martins men being this side of the Cumberland River that they could find.

I would mention here that our arms, the Enfield Rifle, is unfit for chasing. It is too long and unwieldy to be used with effect in a chase on horse back.

We had pretty well finished our winter quarters by the 20th of Dec when I recd orders from Col Maxwell Comdg U. S. Forces S. W. Dist.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be from a notebook or a set of legal pads. The edges of the paper are slightly irregular, and there's a subtle shadow on the right side, suggesting it might be part of a bound volume.

The image is a dark, high-contrast scan of a document page. It appears to be a ledger or a form with multiple rows. A vertical line runs down the right side of the page, separating the main content area from a narrow column on the right. The page is mostly black with some faint horizontal lines and a vertical line near the right edge. There are some small white specks and a bright white area on the right side, which might be a reflection or a tear in the paper. The overall quality is poor, with significant noise and artifacts.

Record and Pension Office.

WAR DEPARTMENT,

Washington, Jan. 6, 1894.

It appears from muster-out rolls of the Field & Staffed the several companies of this regt. on file in this office, and from correspondence found of record, that on July 23, 1864, by direction of the Secy. of War, this regt. was mustered into the United States service to date from May 21, 1864, and was mustered out of said service to date June 22, 1864; the period it actually performed service, and the record of payments, on file in the office of the Auditor of the Treasury, shows that the regiment was paid for that period and no longer.

This regiment is, therefore, considered as having been in the military service of the U. S. from May 21, 1864, to June 22,

1864, the period of its actual
service.
